- ✓ INTEGRATES WITH ALL EMRS & PAYERS
- ✓ AUTOMATICALLY NOTIFIES PAYERS UPON ADMISSION
- ✓ USER INTERFACE SHOW ALL TRANSMITTED NOTIFICATIONS AND THEIR STATUS
- ✓ ATTACH RETURN FAXES AND DOCUMENTS TO THE ADMISSION
- ✓ REPLACES INBOUND AND OUTBOUND FAXING WORKFLOWS

Failure to notify payers of an unscheduled admission ends in time wasted & revenues lost.

This notification process is often manually driven by registration staff through website data entry, phone calls and faxing. This process is further complicated by unscheduled patients, payor specific requirements and mistakes generated by your registration staff.

The **NOA** solution, automatically faxes payers their notifications, and integrates with all registration systems and EMRs using industry standard HL7 or standard face sheet output. Each Payor requiring a fax will automatically receive a notification minutes after your staff completes a patient registration. From there, hospital personnel can view the fax status, date sent, and resubmit Notice of Admission forms to be resent as needed through the RAS NOA interface.

Dbtech offers a suite of products designed to address Business critical access to information. These products effectively assist healthcare companies in maximizing corporate revenues by decreasing costs associated with the myriad of paper oriented processes.
